Editors: Please note the location of the Kingston meeting has been changed to Sanborn Regional High School. It had been scheduled for the Kingston Town Hall.

PLAISTOW-KINGSTON PUBLIC INFORMATIONAL MEETINGS
PLANNED RECONSTRUCTION OF SIX MILES OF NH ROUTE 125

The New Hampshire Department of Transportation announces Public Informational Meetings are scheduled for Wednesday, October 22 in Plaistow and Thursday, October 23, 2003 in connection with an access management plan that is being developed as part of the planned reconstruction of a six-mile section of NH Route 125.

The reconstruction of NH Route 125 from East Road in Plaistow to the intersection with Main Street in Kingston is scheduled to begin in 2006/2007. In addition to the physical improvements proposed for the corridor, the implementation of an access management plan is aimed at achieving a proper balance of access to the highway while maintaining the efficient flow of traffic along the corridor.

The October 22 public meeting will take place at 7:00 PM at the Timberlane Regional High School Performing Arts Center in the Recital Hall, 40 Greenough Road in Plaistow, NH. That session will be followed by the October 23 meeting, also at 7:00 PM, at the Sanborn Regional High School cafeteria, 178 Main Street in Kingston, NH. Each meeting will involve a presentation by New Hampshire Department of Transportation representatives and will be followed by a question and comment period.

All persons interested in the future of the NH Route 125 corridor in Plaistow and Kingston are encouraged to attend one of these public meetings.
